

## Dog Trainer Academy Success Story #12

### INTRODUCTION

Since childhood, Arthur Deak of San Francisco, California, has had a passion for dogs. His interest deepened after watching a TV show called *The Dog Whisperer*-- a series that highlights the special relationship humans have with canines, and how we are able to communicate with them.

**Arthur knew it would be really cool to be able to “talk to animals” like the trainers did in *The Dog Whisperer* and he wanted to figure out how to build that type of communication with dogs.**

Over the years, Arthur studied various dog trainers like Ceaser Milan, and eventually stumbled upon Doggy Dan’s training techniques. Arthur signed up for a free trial of Doggy Dan’s [Online Dog Trainer program](#) and loved that Doggy Dan’s free trial gave him access to EVERYTHING in the program.

Arthur had the opportunity to see Dan’s training methods and experience them before throwing down a ton of money for a dog training program.

**He continued to educate himself--continuously igniting his own passion for working with dogs--while working full-time as a personal trainer.**

## THE TRANSITION: FROM BURNOUT TO A FULFILLED CAREER AS A DOG TRAINER

For 12 years, Arthur had worked as a personal trainer. **After such a long time the demand of his job began to take a toll on him.**

**Arthur began to feel burned out** from not being able to help his clients who were unwilling to help themselves. Each day was a struggle and it became clear that personal training was not the end destination for Arthur.

Around the same time, one of Arthur's good buddies was finding success fostering and training dogs in his area. **Arthur loved the idea of trading his personal training career in for a job where he'd be able to work with dogs every day.**

Arthur's friend was able to provide him a lot of good information regarding becoming a dog trainer. However, Arthur still needed to be given the framework in order to confidently run his own dog training business.

Not long after making this realization, Dan Abdelnoor (Doggy Dan) opened the enrollment for his [Dog Trainer Academy](#)--**a program that provides dog lovers with all the training and business info necessary to open up their own professional dog training company.**

## LAYING THE FOUNDATION: THE DOG TRAINER ACADEMY

As soon as enrollment was opened, **Arthur became a member of the Dog Trainer Academy.** This decision would lay the groundwork for Arthur opening his successful dog training business, [Zen Your Dog](#).

Within this program, **Arthur was given everything he needed to open his business**--from full-length video consults (which covered various difficult dog behavior including aggression, leash pulling, separation anxiety, chewing, puppy training, and more!) to information on setting up a business, marketing techniques, how to manage clients, and everything else in between!

Thanks to the framework, **Arthur was able to leave his job as a personal trainer and begin a new career as a dog trainer.**

## **THE RESULTS**

Since opening his doors in May 2019, Arthur has found much success.

**He currently partners with 3 different rescue organizations in the Bay Area.** Working with these organizations brings him a lot of gratification as he is able to help both dogs and humans who are in need.

**He's also completed around 40 training consults.** At an average of **\$200 per consultation**, he brought around **\$8,000 during his first few months in business.**

Today, his website continues to bring him **3-4 leads per week** and he just embarked on his first-ever board and train package, a **\$2,500** service that he offers.

Thanks to the Dog Trainer Academy, both Arthur and the dogs in the Bay Area have a bright future.
