

# Dog Trainer Academy Success Story #9

## INTRODUCTION

Bill has had a passion for dogs his entire life. **Growing up he didn't own a pup. But, he spent a lot of his time working a special husky** that he formed a deep bond with on the farm where he was employed.

**As an adult, Bill ended up adopting his own puppy—a golden doodle named Jersey.** While Jersey is a wonderful dog it quickly became apparent that **she struggled with separation anxiety.** It pained Bill to watch her in such distress as he and his family would leave the house every day.

Upon searching for a solution to ease Jersey's anxiety, Bill stumbled upon [The Online Dog Trainer](#). A program created by well-known dog behaviorist, Dan Abdelnoor "Doggy Dan".

## A NEW TRAINING SOLUTION: The 5 Golden Rules

Bill made the decision to purchase Doggy Dan's training program—a **decision that would set the path for his future as a dog trainer.**

He quickly implemented the 5 golden rules found within Doggy Dan's kind, gentle training program and

was amazed at how quickly the training techniques were having an impact on Jersey.

**Not only did Dan's methods work to help Jersey, but they also allowed Bill to work from a place of calm energy.** This was unusual as Bill typically found himself operating in energy that was much more assertive and aggressive.

The more Bill operated in this calm setting while training, the more joy he found in it. He began to imagine what his life would look like if he was able to make a shift and continue his love for dog training by becoming a professional dog trainer.

Luckily, Doggy Dan had recently launched his [Dog Trainer Academy program](#), and Bill decided to go for it.

## MAKING THE LEAP

**Feeling burnt out by his current 9-5 office job, Bill was very motivated to put himself on track to become a professional dog trainer** and joined the Dog Trainer Academy.

Not only was he hoping to build the platform for a potential career change down the road, but he was also inspired by his training journey with Jersey. **He knew he could make a large impact in his community for people who were struggling with the same problems he was.**

**Within four months of enrolling in the [Dog Trainer Academy](#), he started to build his own website**, which made things more concrete as he continued to digest the course material and complete his course work.

Seeing things come together tangibly kept him moving forward. Eventually, he needed to begin bringing in paying customers. Here's how he made that dream a reality...

# GENERATING INCOME AS A PROFESSIONAL PART-TIME DOG TRAINER

Bill knew that if he wanted to succeed as a professional dog trainer that he'd have to invest in himself.

He did this in two ways.

First, Bill invested in joining the [Dog Trainer Academy program](#). **While the cost of the program wasn't insignificant, he knew that it would provide him with the tools necessary to succeed as a dog trainer.**

Without the dog training and business-building knowledge provided in the course, it would have been much more difficult for Bill to start a part-time career as a dog trainer.

Second, **Bill invested in advertising services through valuable connections found within the Dog Trainer Academy program.** Knowing the right people proved to be extremely beneficial as Bill brought in 8 leads and 2 paying customers in a rather short amount of time.

At **\$375 per consultation**, Bill was quickly on his way to recouping his investments.

Bill still has a little ways to go before he's where he wants his training business to be. But, he's definitely on the right track as he works hard to reach his goal of becoming a part-time dog trainer.

And he wants you to know that you can find the same success...

***"If you have a desire for training dogs just go after it because there's nothing worse than looking back in life and having regrets. Even if it doesn't turn into a full-time career that's ok. It can just be a learning experience along the way and help people with their dogs. The community/Facebook group/cafe catch-ups are quite helpful to feel supported. It's a very engaged community where everyone grows together."* - Bill**
